Surviving a Toxic and Abusive Relationship Nov 26 2019 It is estimated that one out of every

seven people in the world suffer from one or more of the Cluster B personality disorders. No matter if they suffer from anti-social, borderline, histrionic or narcissistic personality disorder; all emotional abusers have this in common: unhealthy, superficial, inappropriate or completely nonexistent human emotions and extremely abusive, erratic, dysfunctional and toxic behavior. Emotional abusers use anger, aggression, deceit, exaggeration, seduction, manipulation and excessive emotion to get what they want and to hide who they really are. Most are so good at what they do, and so relentless at pursuing and achieving what they desire, that most of the time their victims won't truly realize what is happening to them until they become so isolated, hurt, confused, and disoriented, that they lose all sense of reality and self-identity. Emotional abuse can happen to anyone, but it is a personal hell through which no one should ever have to suffer. Honest, open, insightful and thoughtfully written from the first-hand experience and perspective of an abuse survivor, this book will not only help you identify behaviors that can lead to emotional abuse, but it will also give you the ability to recognize, avoid, escape and recover from its various forms, in all of its subtlety and expressions. It also provides an understanding of why people with Cluster B disorders do what they do, simultaneously shedding light on these disorders that are so often behind mental and emotional abuse.

How to Analyze People Mar 30 2020 If you're tired of being manipulated, whether you're being tricked into doing things you don't want, or others are taking advantage of you, there are ways to stop manipulation and persuasion in its tracks. In this book, you will get a groundwork for what different types of persuasion and manipulation might be. You will learn the process of how people use these tactics to their advantage. The first half of the book will discuss what makes up an individual. The way you use your body, the words that you choose to speak, and the way that they were raised all play important roles in what makes an individual. You will also have to look at your own self and pick out all of these unique things that make them different from everyone else as well. There are psychological studies that back up the idea of certain methods of persuasion, such as NLP tactics, that prove that anyone has the power to persuade others. Inside this book,

you will discover: What Dark Psychology is and how it's used to control people. How to plant different emotional seeds that will grow in people's minds How to use words to steer people however you like How to identify and work with different types of people like contrarians and control freaks. And much more... Although there are many differences among people, there are also many things that make us the same. In order to better analyze and understand those around you, it's crucial to find those things that we do connect on, and the things that bring us together rather than the things that tear us apart. It's important when reading this book to remember that not all manipulation is bad. In the first book of this boxset, it is emphasized that those who might be manipulating you might also be taking advantage of you. When reading this book, you should remember that manipulation is a tool, much like a hammer. You can either use that hammer to destroy everything around you, or you could alternatively use that hammer to create something organic, something new. This book will take you first through the discovery and analyzation of those around you, and then it will provide different ways that you can persuade them. The only thing you need before starting this book is the willingness to change. You might have to confront some of your darkest issues, and you might have to put yourself through future scenarios that elicit a feeling of discomfort. In the end, however, you'll find yourself to be much more self-aware and independent. Click "Add to Cart" now and learn how to defend against dark psychology and keep your mind and life in control.
